Starlight is the light emitted by stars. It typically refers to visible electromagnetic radiation from stars other than the Sun observable from Earth during the night time although a component of starlight is observable from the Earth during the daytime. Sunlight is the term used for the Sun's starlight observed during daytime.

Star Light (2020) - IMDb

By starlight I'll kiss you And promise to be your one and only I'll make you feel happy And leave you to be lost in mine And where will we go, what will we do? Soon said I, will know Dead eyes, are you just like me? Cause her eyes were as vacant as the seas Dead eyes, are you just like me? And all along, we knew we'd carry on Just to belong By starlight I know you As lovely as a wish granted ...

Blenheim by Starlight was an unforgettable evening. With an astonishing achievement by the Oarsome Foursome at its core, and an inspirational Starlight ambassador at its heart, it was an honour and a joy to host. These are the evenings where magic happens and short lives are brightened- thanks to YOU. Let's do it again in 2021!

Blenheim by Starlight - Starlight

The Starlight Boost Boxes are fantastic for children visiting our unit. During the recent pandemic, where most toys have been removed from the waiting areas, the individual items such as crayons and colouring books have been particularly useful to give out to patients to relieve boredom.
