Tackling ethical issues
and dilemmas in
community-based ...

Ethical issues arise at each stage of community-based research and intervention. We divide community-based research and intervention into six stages: (1) selecting the setting in which to address the research problem, (2) designing the research or

Access Free Ethical Issues

intervention to fit the setting, (3) recruiting subjects, (4) collecting data, (5) data handling, analysis, storage and ownership, and (6) disseminating findings.

Considerations for ...

"Ethics in Community-Based Research" is a collection of essays that describe the uniqueness of community-based research, outlining several of the ethical concerns that it engenders. The

Access Free Ethical Issues

contributors examine such issues as the scope of informed consent to multiple stakeholders, determining competence to give consent in marginalized populations, and managing dual roles as participant researchers.
