Identify the assets you would transfer to the trust. You should be detailed—list the specific assets and note their values. If there is an asset that you intend to place in trust but which you haven't yet acquired, include it in your list as well. 2. Decide on the trustees that you would appoint to manage the trust. It is advisable to have between two and four trustees.

Will trusts are mainly used by couples to split ownership of the family home if they own it as 'tenants in common'. Rather than leaving their share to each other, they each leave it to a trust, which comes into being on the death of the first partner. Until recently, will trusts were a common way of saving on inheritance tax (IHT). A couple potentially liable for IHT could split their estate into halves, both below the nil-rate band.

Family trusts can provide extra flexibility in your IHT planning. For example, a family trust can be used to provide a lifetime income for your spouse but with the assets passing to your children, or to help protect ownership of a family business. The tax treatment of family trusts is complex and depends on the type of family trust being used.

**Inheritance tax and family trusts overview | Personal Law**...

A trust is a legal arrangement where you give cash, property or investments to someone else so they can look after them for the benefit of a third person. So, for example, you could put some of your savings aside in a trust for your children. There are two important roles in any trust that you should understand before you read on.
