10 Ways To Help Your Toddler Develop (Without Even Trying) Section: Toddler Development & milestones It's always brilliant to make an effort to encourage your toddler's development - but turns out you can also boost it with the everyday things you barely think about.

10 Ways To Help Your Toddler Develop (Without Even Trying ...

Encourage your child to be physically active. For more information, read the physical activity guidelines for children aged under 5 years. Get your child into a routine of regularly sitting on the potty or toilet, after meals or before bed, and praise them whether or not they poo. This is particularly important for potty-trained boys, who may forget about pooing once they are weeing standing up.

Every child is different, so only do what you feel comfortable with and what you think will suit your child. If your child will not go to bed. Decide what time you want your child to go to bed. Start a "winding down" bedtime routine 20 minutes before the time that your child usually falls asleep. Bring this forward by 5 to 10 minutes each week or 15 minutes if your child is in the habit of going to bed very late until you get to the bedtime you want.

The other day, my daughter was eating cookies and she wanted to go into my room. Crumbs came out of her mouth as she took every bite. I told her not to go into my room with the cookies. I repeated that request at every step she took on the 14-step staircase. I said it one more time when she was at my door.
