SAP BW/4HANA – An Introduction Finding the data model behind an SAP BW InfoCube is often seen as a challenge if you are not familiar with the structure. The model was constructed by reverse engineering a BW system into Safyr, and then choosing the Demo cube as the basis for making a model. Safyr for BW makes it easy to select all the relevant ‘ component ’ tables of a Cube to be included in the model.

How to find Data Models for SAP BW InfoCubes The "SAP Certified Application Associate - Reporting, Modeling and Data Acquisition with SAP BW/4HANA 2.x" certification exam validates that the candidate possesses the fundamental and core knowledge required in the profile of modelling, data acquisition and query design with SAP BW/4HANA. This certification proves that the candidate has an ...

SAP Certified Application Associate - Reporting, Modeling ... The data modeling in SAP BW changes due to these new possibilities. In classic systems, master data – even if they originate from different tables and systems – had to be consolidated into an InfoObject if you did not want to expand the transaction data. This has led to large, inflexible info objects.
