system. During this activity of data transfer, the two systems exchange additional information from time to time in the form of info IDocs.

All about IdocsÆ Communication between BW and R/3 - SAP Q&A

An ALE Message Handler acts as a bridge between SAP R/3 and another application or multiple other applications. It receives intermediate documents (IDocs) from one or more instances of SAP R/3 and carries them to application(s) for processing. Likewise, it sends IDocs received from applications to one or more SAP R/3 instances.
